

Glue flame single to back of flame on candle finish edge of flame with red marker. I found that if I cut the flame off and glued it into the middle of the candle after the candle was rolled it was easier to work with and was more centered. Leave a tail on the single flame piece to fit down into the candle tube.

Bottom of cake Add side of plain paper a little smaller than the colored cake strip for making this a box. Connect the cake to the top should be little larger than the bottom. Put present inside add however many candles you need Cut v cuts in the circle edge to fold up / down to glue cake and box edges on
